

# How to use sign language to help children understand and use speech

This practical workshop explains why some children benefit so much from you using signs as well as speech, and how signing can actually ENHANCE speech development.

Using Naomi's unique teaching style, and lots of games and activities, we will show you how to use signs alongside speech, how to join them up into simple sentences, and some simple rhymes, songs and games for the classroom.

By the end of the workshop you will not only have had a great deal of fun, but will feel confident in using at least 100 signs that you can put to immediate use for the benefit of your children!

## Who should come?

The course will be of particular interest to Primary and Nursery staff - no prior knowledge of BSL, Makaton or Signalong is needed.

*"Naomi has a unique technique – I'm SO glad we chose you!"*

Denise Hopkins, Kingston Day Nursery, Bordesley Green
